

**Plant\*SF Inner Sunset District Sidewalk Demonstration Garden**

1338 - 1360 5<sup>th</sup> Avenue (Irving/Parnassus)

Plant List (7/31/2010)

During Installation

Before (Above); Plants (Below)

This garden was installed in July 2010 as a demonstration of converting large expanses of concrete with various species appropriate for the Sunset District. It is accessible by the N-Judah Muni Train. Located on city sidewalks, it is open for view, free of charge, all day, every day.

Plant\*SF invites you to take this plant list along on your next visit. All species and materials used are commercially available through local nurseries. All are native or climate adapted (drought tolerant), meaning they are native to areas with similar climate conditions so require very little supplemental watering once established. This garden was hand-watered to establish and receives no ongoing irrigation. The plantings include native and climate adapted perennials. The garden features year-round blooming and plants that attract and support pollinators. Over 700 square feet of concrete was removed, increasing infiltration to the natural aquifer and diverting storm water away from the overloaded combined sewer system.

Shift Design Studio designed and coordinated the installation of the gardens. Thanks to: Sunset Concrete, Broadmoor Landscape Supply, Calstone Company (pavers), Pacific Nurseries, and the property owners of these five residences. See [www.PlantSF.org](http://www.PlantSF.org) for further information on this and other sidewalk garden projects.

This project was made possible by the San Francisco Community Challenge Grant, the San Francisco Public Utilities Commission and the San Francisco Parks Trust.

<u>Botanical Name</u>	<u>Common Name</u>	<u>Origin</u>
<i>* indicates California Native</i>		
<b>Native and Climate Adapted Perennials</b>		
Achillea millefolium	Yarrow ('Terra Cotta' and 'Pink')	California (non-native hybrids)
Lavandula intermedia 'Provence'	French Lavender	Mediterranean
Salvia sylvestris	Blue Queen Sage	Eurasia
Gaura lindheimeri 'Whirling Butterflies'	Butterfly Gaura or Bee Blossom	USA (Louisiana to Texas)
Arctotis	African Daisy ('Tangerine' and 'Purple')	South Africa
Lantana	Lantana ('Spreading Orange' and 'Confetti')	Tropical Americas and Africa
*Verbena lilacina 'De La Mina'	Cedros Island Verbena	Baja California
Phormium 'Duet'	Dwarf New Zealand Flax ('Duet')	New Zealand
Phormium 'Cream Delight'	New Zealand Flax ('Cream Delight')	New Zealand
<b>Groundcover</b>		
Gazania	Treasure Flower ('Daybreak Yellow')	South Africa
*Polygonum capitatum	Pinkhead Smartweed	California
